

To whom it may concern,

I am writing this comment to express my opinion that the K-Love Radio network is an outstanding radio service that provides positive Christian based ministry to the whole USA. I live in Kentucky and make use of all four FM translators that broadcast the K-Love signal as I travel around the state. I feel that it would be a major loss if K-Love was forced off the air by a change in FCC regulations.

If the FCC were to change regulations around Low Power FM services and allow LPFM stations to shut out K-Love, my community could lose a very valuable service that ministers to not only Christian listeners, but to people in crisis. As an example, K-Love provides telephone lines staffed with pastors that can help troubled teens (drugs or pregnancy) or even people contemplating suicide seek the help they need to overcome their problems.

THEY SAVE LIVES!

K-Love exists to service the public's best interest.

Thank You for taking time to consider my opinion.

Sincerely,
Andrew Zopff
